

Customised Foam Insert

1: Email us at enquiries@youmanscapsule.com to start a conversation about your customisation requirements and the way you want to present yourself, your brand and your product.

2: Once the design and price is approved we cut the foam, and prepare and assemble any other elements. This process takes between 1 - 3 weeks.

3: For the best fit for your products we need the physical items sent to us to precision cut them out of the foam.

Think about the physical and visual elements of your presentation that you want to include. This could include product, product samples, digital slideshow, imagery and branding.

Customised Engraving

1: Email us at enquiries@youmanscapsule.com to start a conversation about your customisation requirements.

2: Once we've understood your requirements we will send you an image of your logo imitating the engraving look and placement on the capsule for approval. We can give you different placement and size options if needed.

3: We will need an EPS or editable PDF version of your logo to create the image.

4: Engraving takes between 1 - 2 weeks

Think about what size you want your logo or image and where you would like it placed on your capsule. The colour of your capsule will also have an effect on the look of the engraving.
